# NVQ Level 2 in Spectator Safety: Steward Training

NVQ Level 2 in Spectator Safety - Stewards play a vital role in the sports and entertainment industry. Without them, it would be impossible for millions of people to enjoy themselves every week. Yet this occupation is coming under far greater regulation than ever and as a result, training is even more important.

This NVQ is appropriate for stewards at any event including sporting events like football, rugby, cricket, horse racing and motor sports as well as events like concerts, festivals, parades and carnivals.

Once you have completed this course and applied for work at a stadium or event, you will only need to have an onsite orientation and be assessed for your NVQ level 2 in Spectator Safety. This course will allow you to progress into employment, or advance on to the full Level 2 qualification, and then on to Level 3 as a natural progression. You may also be involved in searching people for unauthorised items and this course also looks at the correct procedures for carrying out an effective search.

## SST
Spectator Safety Training for Event Stewards

### Effective Spectator Safety Training

This course is recognised by City & Guilds and is part of the Level 2 NVQ Diploma in Spectator Safety

- Prepare for spectator events
- Control the entry, exit and movement of people at spectator events
- Monitor spectators and deal with crowd problems
- Help manage conflict

- Contribute to the work of your team
- Deal with accidents and emergencies
- An optional additional unit may also be taken: Control and detain people at a spectator event for action by the police

# Partnering with the experts

The Learning Academy  have partnered with Watsons Associates to underpin the knowledge within the Spectator Safety course. It is designed for candidates who work, or want to work, at a stadium or event venue and focusses on managing and assisting the movement of spectators at events.

This will allow you to learn, develop and practice the skills required for employment or career progression in the events sector and how to assist people entering or exiting the venue.

# How can we help you?

Developed by Quadratica and Watson Associates employing the very latest thinking in Computer Based Training (CBT) technology, The SST course is a fully accredited security training course that provides Steward Staff with the most timely information, legislation, strategies to address today's security challenges.

Continuously updated, SST breaks the traditional styles of security training, reduces costs and allows your staff to complete their training programmes, undertake refresher courses and keep abreast of trends and developments on-line.

By utilising the online availability of our SST course, you can organise training around your staff's spare time. And as our SST online courses are available 24 hours a day, 7 days a week, scheduling training for everyone at the same time is no longer a headache - each individual member of your team can undertake training whenever and where ever is most convenient.

Our online SST course will dramatically reduce your training overheads. The unit price of our SST course is extremely low and the course only costs as much as you use - if you only have one or two staff members that need training, all you need to pay for is one or two units. There are not other costs involved!

The Learning Academy's hosting platform has proven to be stable and available, even under strenuous use and has delivered tens of thousands of courses over a period of many years with continual positive results.

# STKC course overview

The course is split down into individual modules to make learning easier, with each module focusing on specific areas of the environment within the Active Leisure sector.

**Lesson 1:** Introduction

**Lesson 2:** Controlling the entry and exit at events

**Lesson 3:** Managing Conflict

**Lesson 4:** Prepare for spectator events

**Lesson 5:** Monitoring spectators & crowd problems

**Lesson 6:** Dealing with accidents & emergencies

**Lesson 7:** Safeguarding children and vulnerable adults

# The Learning Academy

At Quadratica UK we are continually looking for ways to provide our customers with the best functionality, in the most economic format. Training can be expensive, and the quality of instruction can vary from trainer to trainer. Our online training courses deliver high quality training, every time.

Scheduling training for a large work force no longer requires the cost of training rooms, or taking staff off the floor. Our courses are available 24 hours a day, 7 days a week, so training can be scheduled around staff availability and convenience.

To keep our clients' training overheads down, we have priced our courses by the unit – if only 2 people require training, our clients only pay for 2 units, whereas a certified instructor will often charge the same amount whether they are training 2 or 20 people.

We provide training managers with the best possible tools to educate their security staff by continually developing ground breaking technologies. Our products are designed with a strong focus on our customers' ever evolving needs and the shifting landscapes of the security industry.
