

# Airport Supplier DfT Compliance

Our STAS course is designed for businesses and organisations that have access to goods destined for airports and aircraft. From Regulated Airport Suppliers to airlines, airports and civil aviation authorities, we ensure employees understand their role and responsibilities in relation to the security and screening of airport supplies.

To be Department for Transport (DfT) compliant, all airport supplies must have external controls applied prior to arriving at the airport. Developed jointly by Quadratica UK our STAS course is fully accredited by the DfT. The course focuses on best practices and change management, to help your staff adapt to the increasingly complex air transport environment and enhance their skills and knowledge in a wide range of relevant areas.

- Stay abreast of international security standards and best practices
- Develop and implement technical, operational and management skills
- Understand crisis management and risk assessment.

## STAS

Enable your staff to stay abreast of international security standards & best practices, develop & implement technical, operational and management skills and understand crisis management & risk assessment with our online course.

# How can we help you?

At The Learning Academy we are continually looking for ways to provide our customers with the best functionality in the most economic format. DfT training can be expensive and the quality of instruction can vary from trainer to trainer. Our online training courses deliver high quality training every time. Scheduling training for a large work force no longer requires the cost of training rooms or taking staff off the floor. Our courses are available 24 hours a day, 7 days a week so training can be scheduled around staff availability and convenience.

To keep our clients' training overheads down, we have priced our courses by the unit – if only 2 people require training, our clients only pay for 2 units, whereas a certified instructor will often charge the same amount whether they are training 2 or 20 people.

We provide training managers with the best possible tools to educate their security staff by continually developing ground breaking technologies. Our products are designed with a strong focus on our customers' ever evolving needs and the shifting landscapes of the security industry. Continuously updated, our STAS course allows staff to complete their training programmes, undertake refresher courses and keep abreast of trends and developments online.

## STAS course overview

**Lesson 1:** Threat to Aviation

**Lesson 2:** Legal Requirements

**Lesson 3:** Prohibited Article

**Lesson 4:** Methods of Concealment

**Lesson 5:** Response to Incidents
